

Rotary Summer Camp Lithuania is an international camp for children from disadvantaged families. This camp was initiated by Carl Berneheim at 2008, and it's still been held annually for 12 years now. A group of 60 children have the opportunity to spend their summer at a camp full of music, art and culture.

Vilnius International Rotary Club has now a full package of knowledge and experience accumulated over the years in organizing this summer camp. A lot of various people come to the camp, from ornithologists to firefighters, and even representatives from other foreign Rotary clubs.

The daily success of the camp is ensured by the chairman of the camp committee, Rotarian and a member of "Riflemen's Union" organization Rokas Tamulis. Other VIRIC members also contribute by coming into the camp and helping to organize the activities.

In 2021 the camp will be held on June or July in the Guopstos Jesuit Gymnasium campsite. The campsite is located in a convenient location, only 12 kilometers from Vilnius city. The camp is led by a young and proactive director Vaclovas Ališauskas, assisted by 4 commanders, their deputies and deputies' additional assistants.

Organizers ensure that children won't be short of activities because each day children get up at 8 AM and lay in beds at late night, at 11 PM.

**Our aim is to make this camp a joint Lithuanian Rotary Summer Camp and invite you to join.**

1. Each club can delegate 2 or 4 children 10-12 years old, girls and boys preferably equally (**children must only come from disadvantaged families**).
2. The club pays a scholarship of EUR 100 per child and ensures the arrival and departure of and to Summer Camp (great opportunity for club representatives to attend the opening party).
3. Rotarians can contribute by organizing or attending some camp activities or just to have a fun at the closing evening which would bring us all together!
